ADRI  
Why are you doing this?

CAITLIN  
Doing what?

ADRI  
The day after you and Aeden break up, you wear that outfit and hook up with random strangers. It seems like a rebound, cry-for-help, thing. I'm not judging you. I just feel like you're doing things that you're going to regret.

CAITLIN  
Look, I was someone's girlfriend for two-years and I loved him and he dumped me [REDACTED]. Since I spent the last twenty-four hours crying, I thought having fun might be a better option.

ADRI  
I get it, you're single now, but making out with every guy here isn't going to make you happy.

CAITLIN  
I'm happy. Look at me. You're the one who can't stand to see me doing what you wish you could.

ADRI  
(overlapping) This isn't about me.

CAITLIN  
If you'd stop being my therapist for a second, you'd realize that NEVER having a boyfriend is probably a sign that you have your own issues.

ADRI  
I was trying to be honest, as your friend. You're just being mean.

CAITLIN  
Sometimes being honest and being  
mean are the same thing.
